

# PKU Care Team Contact Sheet

Staying organized can help you better manage your PKU.

Your PKU Care Team can include your primary care physician, dietitian, geneticist, insurance providers, or any other team members you may be working with, such as a neuropsychologist or social worker.

You can take this contact sheet with you to your appointments to capture any changes and stay organized. It's a helpful way to keep track of everyone who helps you manage your PKU.
